BiPOspin 720° rotating Bipolar Forceps

15/10

BiPOspin 720° rotatable Forceps - turn the grip instead of the wrist

Bipolar Forceps, 34cm, 360° rotating handle and 360° rotating shaft, complete, without electrodes

| 300-860-534 34cm

| 300-860-545 45cm

| 300-860-500
Handle only

| 300-560-535
Shaft only, 34cm working length

| 300-560-546
Shaft only, 45cm working length

The BiPOspin handle rotates independently of the shaft, so the instrument can be controlled in a relaxed natural way, reducing fatigue and enabling precise handling and control during surgery.

The handle can be rotated 360°, so the surgeon's ideal ergonomic handling position can be achieved.

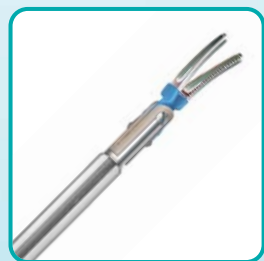

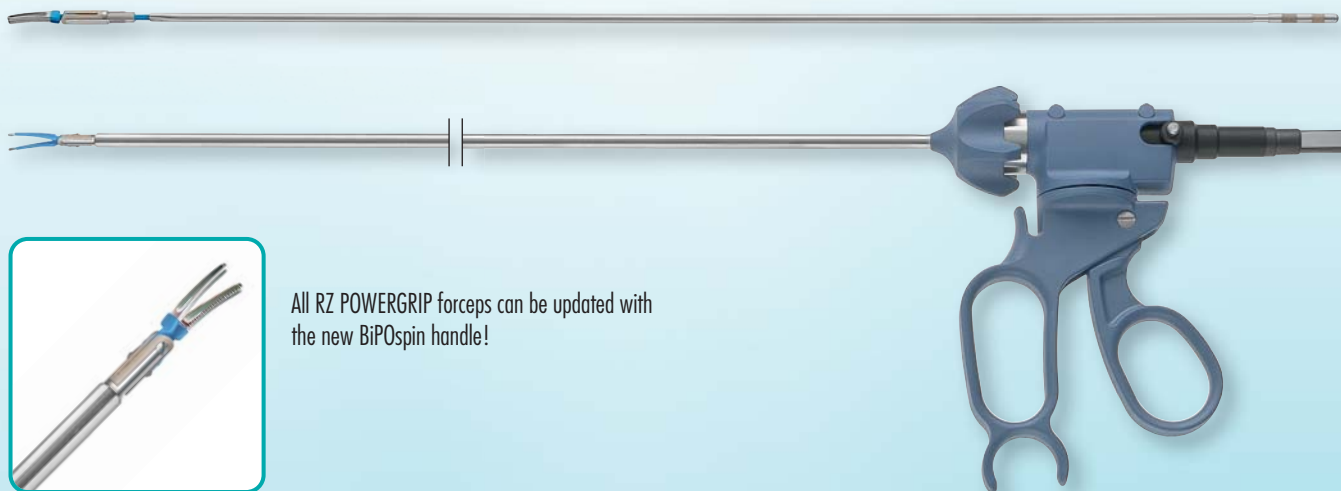

The large rotating knob on the electrode shaft give the surgeon enhanced single finger control over the full 360° rotation. The result is precise control of the electrode's position.

The shaft and the electrode are inserted and locked into the handle with a click-stopp, same as in the well proven POWERGRIP bipolar forceps. The electrode inserts of the POWERGRIP are fully compatible with the BiPOspin handle, resulting in a wide range of proven electrodes being available for use.

Electrodes

All RZ POWERGRIP forceps can be updated with the new BiPOspin handle!

Powergrip Bipolar Grasping Forceps, fenestrated jaws, double action, serrated, 5 mm

300-860-013 34 cm
300-860-023 45 cm

Powergrip Bipolar Grasping Forceps, slightly curved, 5 mm, double action

300-860-011 34 cm
300-860-021 45 cm

Powergrip Bipolar Delta grasping forceps, 5 mm

300-860-014 34 cm
300-860-024 45 cm

Powergrip Bipolar grasping Forceps, 5 mm, curved
