RZ SUPPORTER Arm System

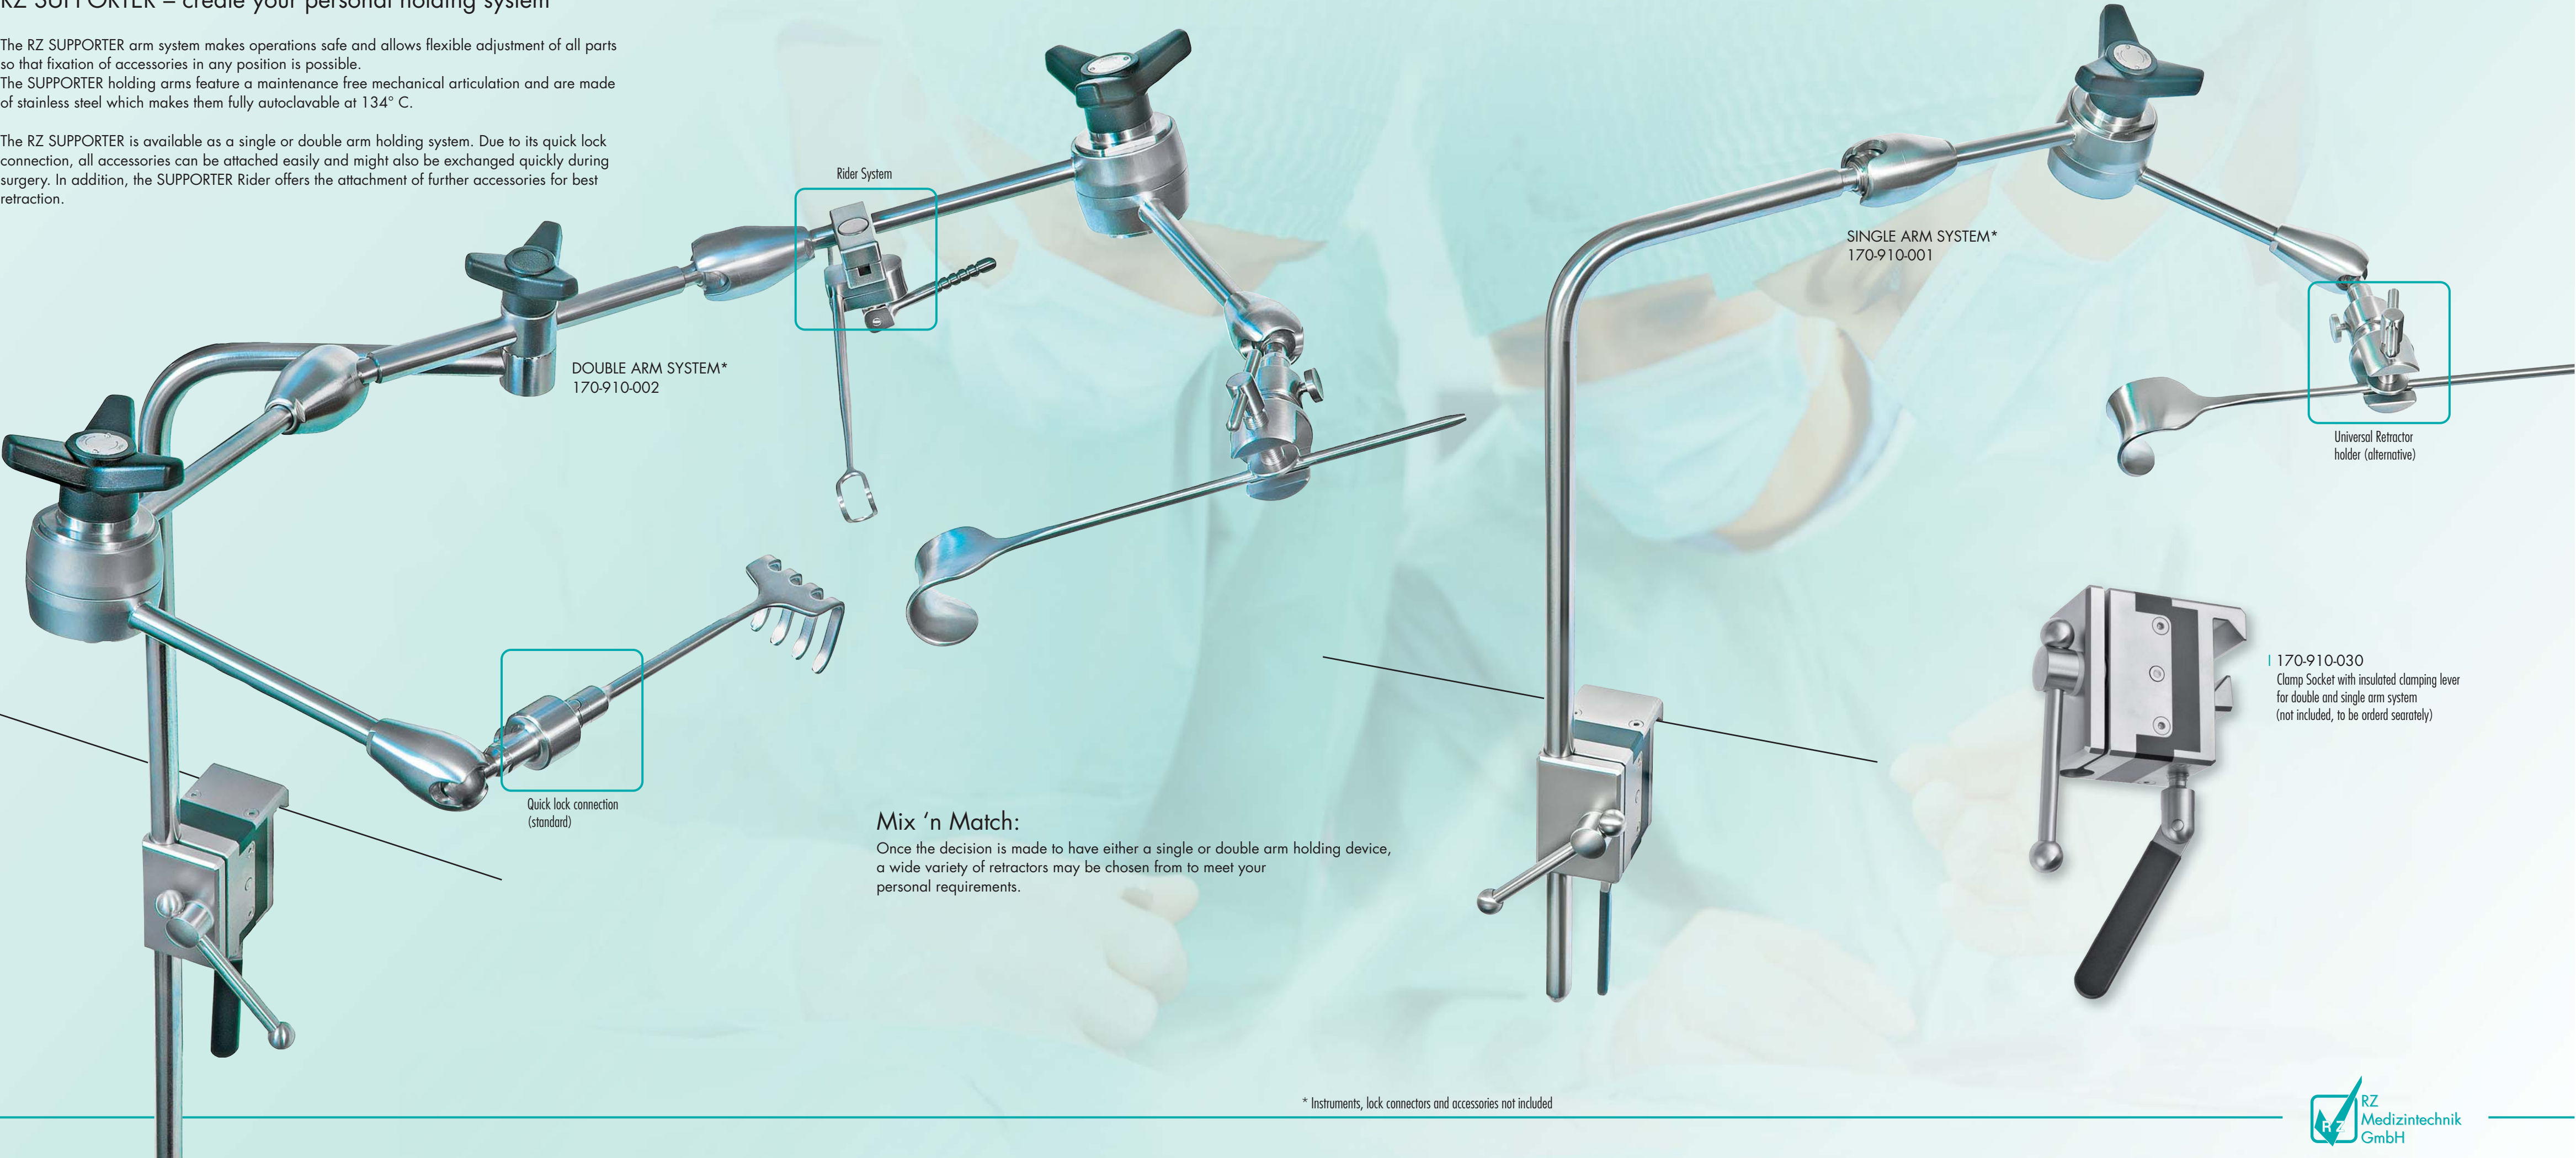

08.12

RZ SUPPORTER – create your personal holding system

The RZ SUPPORTER arm system makes operations safe and allows flexible adjustment of all parts so that fixation of accessories in any position is possible.
The SUPPORTER holding arms feature a maintenance free mechanical articulation and are made of stainless steel which makes them fully autoclavable at 134° C.

The RZ SUPPORTER is available as a single or double arm holding system. Due to its quick lock connection, all accessories can be attached easily and might also be exchanged quickly during surgery. In addition, the SUPPORTER Rider offers the attachment of further accessories for best retraction.

DOUBLE ARM SYSTEM*
170-910-002

SINGLE ARM SYSTEM*
170-910-001

Universal Retractor
holder (alternative)

Quick lock connection
